

# Rayyan Abdat

Entry-Level Web Developer

Bogor, Indonesia, +6289683490628, abdatrayyan7@proton.me

---

## PROFILE

Motivated and detail-oriented graduate with hands-on experience building web-based projects and a strong interest in web development. Skilled in problem-solving, communication, research, and self-directed learning. Able to work with structured information, learn new tools quickly, and develop practical digital solutions with attention to usability, clarity, and reliability.

---

## PROJECTS

### **Certiva, Web3 Credential Verification Platform**

Built a credential verification platform for institutions with public verification by code, URL, and QR reference. Developed dashboard and verification features using Next.js, TypeScript, NestJS, PostgreSQL, Prisma, Redis, and Cloudflare R2. Added blockchain hash anchoring with Polygon as an optional integrity layer without storing personal data on-chain.

### **Alterra, DeFi Web Application**

Built a Web3 DeFi interface for token swaps, liquidity pools, staking, portfolio tracking, and testnet token faucet features. Developed wallet-connected user flows with a responsive dashboard and smart contract interaction support.

### **KeyForge, Offline Wallet Generator CLI**

Built a command-line wallet generator for EVM and Solana development use cases. Implemented local key generation, interactive and direct command modes, and CSV output. Designed the tool to run offline with no network calls, telemetry, or cloud storage dependency.

---

## EXPERIENCE

2020 - 2021

### **Teacher, Ibnu Taimiyah Boarding School**

Bogor

Planned and delivered structured lessons based on curriculum standards. Communicated with students, parents, and colleagues to support learning outcomes. Managed classroom activities, maintained student records, and created a disciplined learning environment. Developed strong communication, organization, problem-solving, and presentation skills.

---

## EDUCATION

2021 - 2026

### **Bachelor of International Relations, Al-Azhar University of Indonesia**

Jakarta

Graduated in 2026. Concentration in diplomacy, geopolitics, and international law. Relevant coursework included International Relations Theory, Comparative Politics, Research Methods, Foreign Policy Analysis, and Development Studies. Developed research, policy analysis, communication, and cross-cultural collaboration skills.
